In the Claims

Please amend pending Claims 1, 4 and 5 as follows,
which constitutes a clean copy thereof:

5471-7
1. (amended) An integral single piece adapter ring with internal female and external male threads, for adapting a conventional baby bottle nipple-and-collar to fit a conventional narrow-mouthed threaded beverage bottle top, said adapter comprising:

a cylindrical ring (2) having an internal void (3) therein;

said female threads located on an inner wall (4) of said ring (2);

said female threads for mating with respective male bottle-top threads of a conventional narrow-diameter threaded-cap beverage container (8), said female threads on said inner wall (4) for permitting alternate user mounting and user removal of said cylindrical ring (2) respectively onto and from said conventional beverage bottle (8);

said cylindrical ring (2) having said external male threads on an outer wall of said ring (2); said male threads for alternate user mounting and removal respectively onto and from respective internal female threads on a conventional baby-bottle nipple collar (6);

flange, said unbraced, unencumbered sealing flange being completely flat on respective top and bottom surfaces thereof for engaging and sealing a top opening of said beverage bottle top, said completely flat sealing flange having an opening for passage of liquid;

said top chamber having an uninterrupted recess therein and a smooth cylindrical interior wall surface;

female threads being provided along an inner surface of said bottom chamber for engaging threads on the outside of said beverage bottle top;

a collar formed on the outside of said ring adjacent a lower opening into said bottom chamber; and

male threads on the outside of said ring above said collar for engagement with a collar accommodating said nipple therein.

5. (new) The integral, single piece adapter of claim 4 in which said top chamber has a larger inside diameter than said bottom chamber.
